Conventions

Abbreviations

C: consonant; **C1:** first consonant of a word; **C2:** second consonant of a word

IPA: International Phonetic Alphabet

(<https://www.internationalphoneticassociation.org/content/full-ipa-chart>)

NN: Nwehu Nuswei

V: vowel; **V1, V2,** etc.

~ (tilde) after a word indicates tentative vocabulary assignment

Typography

Words used to describe features of the NN language are shown in SMALL CAPS if their definition is specific to NN.

When NN is written in roman letters, it is shown in *italics*.

Glosses (meanings of words) are enclosed in 'single quotes'

IPA transcriptions enclosed in /slants/ are phonemic; in [brackets] are phonetic

Internal References

Chapters are divided into “sections” with references using the symbol § as in §1.2.3

Charts, tables, diagrams and illustrations are all called “Displays” with references using the symbol $\mathcal{D}_p$ as in $\mathcal{D}_p1.2$

Table of Contents

Chapter 1. Introducing Nwehu Nuswei.....5	6.1. Background.....95
1.1. General Principles of Nwehu Nuswei.....6	6.2. Concepts.....97
1.2. Semantic Space.....14	6.3. Purpose of the Message.....99
1.3. Dimensionality.....18	6.4. Other Important Message Concepts.....103
1.4. The Lexicon.....21	6.5. Time in the Verb.....107
Chapter 2. The Writing System.....26	6.6. Illustrations of Time in the Verb.....113
